PROFILE

I am writing to express my keen interest in participating in a training program focused on AI and Machine Learning. I recently graduated from [Gollis University] with a degree in Computer Science, and I have a strong passion for modern technologies such as Artificial Intelligence (AI), Data Science, and Machine Learning.

During my studies, I gained experience in React Native, Firebase, and Mobile App Development, and I have worked with databases such as Firestore and Realtime Database. My goal is to enhance my understanding of AI and Machine Learning and learn how to apply them in software development and real-world problem-solving.

If your institution offers training on AI and Machine Learning, I am eager to take part and fully utilize the opportunity to prepare for future roles and projects in this field.

Please let me know if it is possible to enroll in the training and the necessary requirements for registration. I appreciate your time and consideration and look forward to your positive response.

EDUCATION

High school diploma 2017 - 2022
Gacan lbaax| maroodi-jeex, Hargeisa

Bachelor of an Computer Science 2022 - 2025
| Gollis university
